Best known as Jorge Luis Borges' s right-hand man, Adolfo Bioy Casares (1914 – 1999) was, in his own right, an inventive writer of considerable skill. His works, often dismissed summarily as fantastic fiction, are now ripe for reassessment. This volume looks at Bioy' s extensive oeuvre which offers many surprising reflections on the twentieth century' s cultural, social and political transformations, both in Argentina and farther afield. Topics covered include Bioy' s meditations on isolation and logic, and his enduring fascination with the impact of photography on all artistic representation.

Lucio, a normal man in a normal (nosy) city neighborhood with normal problems with his wife (not the easiest person to get along with) and family and job (he lost it) finds he has a much bigger problem: his wife is a dog. At first, it doesn't seem like such a problem, because the German shepherd inhabiting his wife's body is actually a good deal more agreeable than his wife herself, now occupying the body of the same German shepherd in a mental hospital run by scientists who, it appears, have designs on the whole neighborhood. But then Lucio has a sense, however confused, of what's right, which is an even bigger problem yet. *Asleep in the Sun* is the great work of the Argentine master Adolfo Bioy Casares's later years. Like his legendary *Invention of Morel*, it is an intoxicating mixture of fantasy, sly humor, and menace. Whether read as a fable of modern politics, a meditation on the elusive parameters of the self, or a most unusual love story, Bioy's book is an almost scarily perfect comic turn, as well as a pure delight.
